

KSBY-DT, San Luis Obispo, California (Facility ID No. 19654)
 Request for Extension of Special Temporary Authority
 Exhibit 36
 December 2007

KSBY Communications, Inc. (“KSBY”), permittee of the above-referenced digital television station (“Station”), pursuant to Section 73.1635 of the Commission’s rules, hereby respectfully requests a six-month extension of the Special Temporary Authority (“STA”) to continue to operate DTV facilities with parameters at variance from the Station’s construction permit. The Commission initially granted STA on April 26, 2002 (See FCC File No. BDSTA-20020416ABC) and most recently extended STA on June 29, 2007, for a term expiring on December 29, 2007 (See FCC File No. BEDSTA-20060630AAP). The Station currently operates the facilities authorized by the STA.

This request seeks authority for low power DTV operations pursuant to Paragraphs 34-36 of the *Memorandum Opinion and Order on Reconsideration* in MM Docket No. 00-39, 16 FCC Rcd 20594 (2001). The technical data for the requested facilities is provided below. The requested facilities comply with the FCC’s rules, including with the FCC’s minimum initial build-out requirements, FAA and FCC tower requirements, the FCC’s community of license coverage requirement, and the FCC’s environmental rules governing radio frequency (“RF”) radiation. The Station’s proposed coverage does not exceed that resulting from the allotted parameters in Appendix B (DTV Table of Allotments) of the *Second Memorandum Opinion and Order on Reconsideration of the Fifth and Sixth Report and Orders* or the parameters in the Station’s construction permit.

An extension of the STA would serve the public interest by ensuring the continued provision of digital service to the Station’s community of license. In the unlikely event that unacceptable interference is caused, KSBY is willing to take all reasonable steps to eliminate such prohibited interference, including modifying operating parameters or ceasing operation, if necessary. KSBY understands that grant of STA does not provide any permanent authority to operate the Station in the manner proposed. On November 16, 2007, KSBY filed a request for an extension of its waiver of the July 1, 2006 replication/maximization interference protection deadline for the Station. A copy of the waiver request is attached.

	Authorized DTV Facilities DTV Construction Permit BPCDT-19991012AAY	Requested STA for DTV Facilities
Channel	15	15
Maximum Effective Radiated Power	1000 kW	2.8 kW
