LAND SURVEYING-MAPPING-CONSTRUCTION STAKING

October 13, 2004

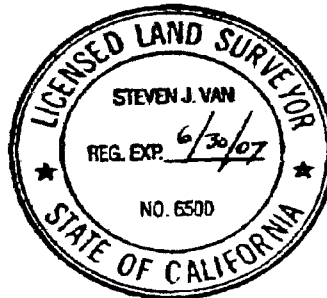

KBXO Radio
PO Box 1924
Tulsa, OK 74101
Attn: Jim Large, Project Manager

On October 8, 2004 Van Surveying Inc. observed the positioning of the KBXO Radio Antenna, Model No. PS1FML-1-DA, located on Indio Peak north of Indio, California.

Using a magnetic declination of 14° East we established a line on an azimuth of 35° with respect to True North. The antenna was then aimed down the reference line and observed by Van Surveying field crew.

Sincerely

Steven J. Van, P.L.S.
President
