ENGINEERING STATEMENT
MEREDITH CORPORATION
MODIFICATION OF BLDTT20100910ABC
TELEVISION TRANSLATOR STATION K27KS-D
GLOBE/MIAMI, ARIZONA
CH 27, 1.0KW-D, 676 MTR. HAAT

This statement supports an application by Meredith Corporation licensee of K27KS-D a television translator station licensed to serve Globe/Miami, Arizona.

The applicant is proposing to change the transmitting antenna to a more current design. The current antenna is no longer supported by the manufacturer. Additionally, the applicant is correcting the coordinates and antenna height to reflect the actual parameters.

The proposed coverage contour from the new antenna well overlaps the coverage of the current antenna.

An analysis was performed using the methodology stated in OET-69 using same software (tv_process_2010) utilized by the Commission for analyzing interference into current users and pending applicants and, therefore, should yield similar results. The results of that analysis indicate the proposed facility is in compliance with 47 C.F.R. Sections 74.709, 74.793(e), 74.793(g), 74.794(b) and 73.1030.
