

**June 2008**  
**New FM Channel 205A**  
**Baseline NCE Service Study**

A study has been made of the baseline (i.e. existing) NCE service provided to areas within the 60 dBu contour of the proposed NCE FM facility. Population counts are per the 2000 Census, using the block centroid method. The results of that study indicate that the following existing stations provide protected NCE service to this area, as depicted on the attached map exhibit:

<b>Callsign</b>	<b>Channel</b>	<b>Community</b>
KUGS	207A	Bellingham
KMWS	209A	Mount Vernon
KSVR	219A	Mount Vernon

The following table lists the population served by the proposed facility, along with the populations which will receive their first and/or second NCE service as a result of the grant of the instant application.

<b>Proposed</b>	<b>Population</b>
60 dBu	89,641
1 <sup>st</sup> NCE Service	20,909 23%
2 <sup>nd</sup> NCE Service	18,901 21%
1 <sup>st</sup> +2 <sup>nd</sup> NCE Service	39,810 44%
