**To:** Keane, Ken  
**Subject:** BPH-20021015AAD - WZIN (FM) - Charlotte Amalie, VI -- Program Test Authority

To Ken Keane:

This e-mail is in response to your fax of 3/17/2005 which requests the reinstatement of automatic program test authority for WZIN, Charlotte Amalie, VI. You include exhibits to show that the RF condition on construction permit BPH-20021015AAD will be satisfied by the use of an Dielectric DCR-M8CFP antenna. I have reviewed the exhibits and agree with your conclusions.

Consequently, by this e-mail, program test authority IS GRANTED to permit WZIN (FM) to operate at an effective radiated power of 44.0 kW ERP (circularly polarized) with the facilities authorized in construction permit BPH-20021015AAD. Please include a copy of this e-mail, as well as Dielectric's antenna elevation pattern, as an attachment to the license application to cover this construction permit to document that the construction permit condition has been satisfied.

This authorization is being sent by e-mail in lieu of a letter for the same purpose in order to get this authority to you as soon as possible. Please print a copy of it and keep it with the station's records. The grant of this program test authority will also be noted in the FCC's CDBS database.

If there are any questions, please contact me at 202-418-2706.
