

## **EXHIBIT 21**

### **Request for Special Temporary Authority**

KTVU Partnership, licensee of KRXI-DT, Reno, Nevada, hereby requests special temporary authority ("STA") for KRXI-DT to continue to operate at reduced power due to equipment failure. On January 6, 2009, KTVU Partnership notified the Commission that KRXI-DT was operating at reduced power. KTVU Partnership has been working diligently towards restoring KRXI-DT to its licensed parameters, but to do so it must ship the failed transmitter back to the manufacturer for repair. Once the repairs are complete, KTVU Partnership will notify the Commission accordingly.

Based on the foregoing, KTVU Partnership respectfully requests STA for KRXI-DT to continue to operate at reduced power for a period of time not to exceed 180 days.
