

THE INTERSECTION OF  
FAITH & REASON

August 23, 2006

Federal Communication Commission,

This is to verify that on August 14<sup>th</sup>, 2006 I witnessed the assembly and installation of a Shively Model 6015-1-2-DA antenna system for KKLA FM 99.5

The installation was done by Northstar Broadcast in full conformance with the drawings, specifications and instructions of the manufacturer.

The above statement is true and accurate to the best of my belief.

Thank You,

A handwritten signature in black ink, appearing to read "Mark S. Pallock", written over a large, stylized, light-colored mark that resembles a large "X" or a checkmark.

Mark S. Pallock  
Chief Engineer  
KKLA
