

EXHIBIT 2

DESCRIPTION OF TRANSACTION

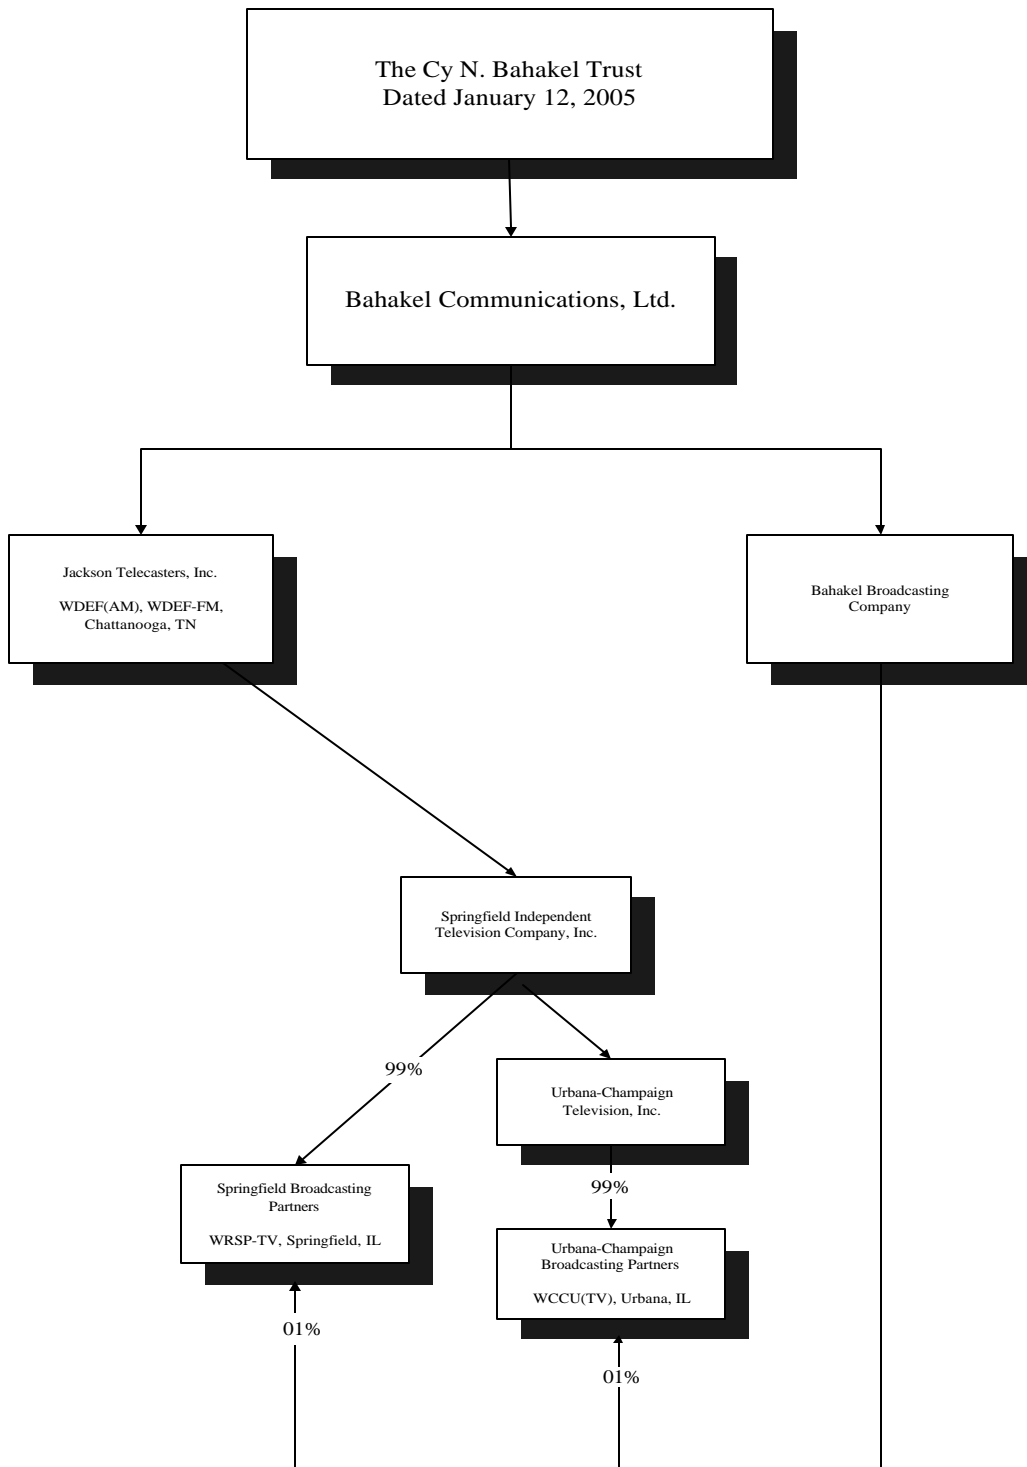

This application requests the FCC's consent to a series of intra-group mergers which have as their ultimate result the *pro forma* assignment of the license of WCCU(TV), Urbana, Illinois from Urbana-Champaign Broadcasting Partners ("Assignor") to Springfield Broadcasting Partners ("Assignee"). The ownership of Assignor and Assignee before and after the assignment is depicted in the attached charts.

As shown on the attached charts, Springfield Independent Television Company, Inc. ("SITCI") holds 99 percent of the voting and equity in Assignee; Bahakel Broadcasting Company holds the remaining one percent. Urbana-Champaign Television, Inc., a wholly owned subsidiary of SITCI, holds 99 percent of the voting and equity in Assignor; Bahakel Broadcasting Company holds the remaining one percent.

The ultimate control and 100% ownership of both Assignor and Assignee is currently indirectly held by the Cy N. Bahakel Trust Dated January 12, 2005. Thus, use of FCC Form 316 is appropriate because the transaction proposes an assignment from one entity wholly-owned by a trust to another entity wholly owned by the same trust.

An application for renewal of the license of WCCU(TV) is currently pending. (See FCC File No. BRCT-20050728ALU.) An amendment will be filed reporting the submission of this application since the name of the licensee will change.

**BAHAKEL COMMUNICATIONS, LTD.
