

**Exhibit E-5**

This exhibit has been included to demonstrate that the proposed facility would comply with the provisions of Section 73.3555 of the Commission's Rules. The applicant is the applicant for three new FM stations in the vicinity. These three stations are located at Bayfield, Colorado, Dove Creek, Colorado, and Teec Nos Pos, Arizona.

The attached computer generated contour map demonstrates that none of the three facilities in the region would have 70 dBu service contour overlap with any of the other facilities. Parties to the applicant have attributable interests in other broadcast facilities, however, none of these other facilities would have principal community coverage contour overlap with the proposed facility, or any of the three facilities in the region. As a result, it is respectfully submitted that the proposed facility would be in compliance with the provisions of Section 73.3555 of the Commission's Rules.
