In re: WROG (FM); Chambersburg, PA
WITF, Inc.
Facility ID No. 49384
License application BMLED-20081014ACJ
License BLH-20081126ASZ

Dear WITF:

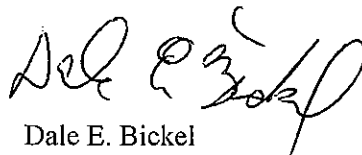

License application BMLED-20081014ACJ was filed on October 14, 2008 seeking to change the WROG, Cumberland, MD from commercial to noncommercial educational. By letter dated November 7, 2008, the staff granted a related assignment application (file no. BALH-20080911ACJ) to assign the station from Broadcast Communications, Inc. to WITF, Inc. That letter indicated that license application BMLED-20081014ACJ would be granted, effective as of the date that the Commission was notified of the consummation of the assignment.

However, between the November 7, 2008 letter and the receipt of the consummation notification on February 4, 2009, the staff granted a license (file no. BLH-20081126ASZ) to cover construction permit BMPH-20070914ABG. That construction permit had specified a change in station class, station channel, and change of community of license from Cumberland, MD to Chambersburg, PA.

The grant of license BLH-20081126ASZ means that the facilities specified in the modification of license application BMLED-20081014ACJ no longer exist as authorized facilities for WROG. In these circumstances, we cannot issue a license for application BMLED-20081014ACJ. Consequently, application BMLED-20081014ACJ IS DISMISSED, notwithstanding the grant specified in the November 7, 2008 letter.

Instead, we are reissuing the more recent license BLH-20081126ASZ to reflect WROG's status as noncommercial educational. The file number is modified to BLED-20081126ASZ, and an informational condition is added to the license to reflect the main studio waiver granted in the November 7, 2008 letter. Thus all currently authorized facilities for WROG are now specified in license BLED-20081126ASZ.

Sincerely,

Dale E. Bickel
