

The map displays the San Antonio area with latitude and longitude coordinates. It highlights three proposed coverage areas for K281AV:

- 25 Mile KDAE(AM):** A large red circle centered near the intersection of the 28-00 and -97-30 coordinates.
- 2mV/m KDAE(AM):** A green line extending from the red circle towards the northwest, passing through areas like Orangedale and Beeville.
- KDAE(AM):** A blue line extending from the red circle towards the southeast, passing through areas like San Antonio and Clarkwood.
- 60dBμF(50,50):** A small green circle centered near Clarkwood, indicating a specific signal strength area.
