Re: Townsquare Media Lubbock License, LLC
KZII-FM, Lubbock, Texas
Facility Identification Number: 61150
Special Temporary Authority
BESTA-20121126AQE

Dear Counsel:

This is in reference to the request filed November 26, 2012, on behalf of Townsquare Media Lubbock License, LLC ("TMLL"). TMLL requests an extension of the special temporary authority ("STA") granted September 18, 2012 to continue operating Station KZII-FM with emergency antenna facilities pursuant to Section 73.1680.¹ The previous STA authorized such operation because KZII-FM's transmission line had burned out. However, in preparing to make the transmission line replacement, TMLL determined that the tower is overstressed and must be reinforced. The licensee is soliciting bids for the work.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

¹ KZII-FM is licensed for operation on Channel 273C1 (102.5 MHz) with effective radiated power of 100 kilowatts (H&V) and antenna height above average terrain of 249 meters.

Inasmuch as factors beyond the control of the licensee have prevented replacement of the transmission line, we find that extension of the STA is warranted. We will grant the extension for a six month period to allow sufficient time for the work to be completed.

Accordingly, the request for STA IS HEREBY GRANTED. Station KZII-FM may continue to operate from its licensed site with the following facilities:

Channel	273 (102.5 MHz)
Effective radiated power:	3.8 kilowatts (H&V)
Antenna height:	
above ground:	162 meters
above mean sea level:	461 meters
above average terrain:	167 meters

TMLL must notify the Commission when licensed operation is restored. TMLL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **June 13, 2013**.

Sincerely,

Dale Bickel
