Section III, Question 5  
EXHIBIT 12**

**Description of the Transaction;  
Changes in Interests**

This application and 15 concurrently-filed applications on FCC Form 316 (the “Applications”) seek Commission consent to certain *pro forma* transactions involving the direct and indirect holding company and radio station licensee subsidiaries of Univision Radio, Inc. (“Univision Radio”). The proposed transactions are being undertaken in order to simplify the organizational structure of the Univision Radio station portfolio (the “Restructuring”).

Upon consummation of the Restructuring, the number of station licensees in the Univision Radio portfolio will be reduced from sixteen to three; furthermore, no new entities are being introduced into the structure. Organizational charts depicting the current and post-consummation downstream ownership structure of Univision Radio and its direct and indirect subsidiaries are attached as Attachments A and B, respectively. Except as otherwise noted, Univision Radio and its subsidiaries that are the subject of the Applications are Delaware corporations.

The Restructuring will be effectuated through the following transactions, to be
