

MINOR CHANGE APPLICATION
CITY OF LICENSE CHANGE
INSPIRATION TIME, INC.
WCTL FM RADIO STATION
CH 292A - 106.3 MHZ - 0.86 KW
ERIE, PENNSYLVANIA
February 2017

TECHNICAL STATEMENT

This Technical Statement and attached exhibits were prepared on behalf of Inspiration Time, Inc. ("Inspiration Time"), licensee of FM station WCTL, Channel 292A, Union City, Pennsylvania. Inspiration Time herein proposes to modify the WCTL license to implement a change of community of license from Union City, Pennsylvania to Erie, Pennsylvania using the one-step application procedure, as outlined in MB Docket #05-210 (released November 29, 2006). A contingent city of license change application for AM station WMCE, 1530 kHz, is proposed as a 'back-fill' facility so as not to leave Union City without local service. Exhibit #3 addresses the proposed change of city of license factors.

Inspiration Time proposes to relocate the WCTL facilities to an existing tower that has been registered with the FCC and assigned Antenna Structure Number 1055828 as a portion of this minor change application. From the proposed implementation and allocation coordinates, Channel 292A is fully spaced to all other stations under §73.207 of the Commission's rules, as shown in Exhibit #1. This proposal is mutually exclusive with the WCTL license. From the proposed implementation site, a 70 dBu (FCC 50/50) contour is delivered to the entire city of Erie.

Compliance with RF exposure guidelines is not possible using the FCC worksheet due to co-located television stations. Exhibit #2 addresses compliance with these guidelines. While this proposal is 3.1 kilometers from AM directional station WRIE, the tower on which WCTL proposes to relocate is not base insulated or de-tuned at the WRIE operating frequency. It is, therefore, requested that restrictions regarding field measurements of WRIE in a partial proof of performance of its directional operation should not be required.

All other necessary documentation used to certify the technical portion of FCC Form 301 has been forwarded to Inspiration Time and is available to the Commission upon request.¹

We have tried to be as accurate as possible in the preparation of this application. All information contained in this application was extracted from the CDBS database. We assume no liability for omissions or errors in this source. Should there be any questions concerning the information contained herein, we welcome the opportunity to discuss the matter by phone at 912-638-8028 or by email at rsg@grahambrock.com.

1) The undersigned has reviewed only the RF exposure issues associated with this proposal. All data relating to broadcast facilities was extracted from the CDBS database on the date of this application. We assume no liability for errors or omissions in that database that are adverse to the requests made herein.
