

TECHNICAL STATEMENT  
RADIO MULTIPLE OWNERSHIP ANALYSIS  
AMFM RADIO LICENSES, LLC

This statement and the attached figures were prepared on behalf of AMFM Radio Licenses, LLC ("AMFM"), a licensee subsidiary of Clear Channel Communications, Inc. ("CCC"). AMFM proposes to modify the facilities of WBIG-FM, Washington, DC. A multiple ownership analysis was prepared considering the following radio stations under present or proposed common ownership, time brokerage or joint sales.<sup>1</sup>

Table 1: Proposed Commonly Owned, Brokered or Jointly-Sold Stations

Since certain of these stations have overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations), or are located in, or home to, the same Arbitron Metro markets, an ownership study has been prepared in accordance with the Federal Communications Commission's local radio ownership rule.<sup>3</sup>

CCC does not have an attributable interest in any other station with a principal community contour that overlaps or intersects the principal

<sup>1</sup> None of the following stations are attributable by virtue of a time brokerage agreement or joint sales agreement.

<sup>2</sup> Arbitron data presented herein is obtained from BIA's "Media Access Pro."

<sup>3</sup> See 47 C.F.R. § 73.3555(a).

community contour of WBIG-FM as proposed, or which is located in the same Arbitron Metro<sup>4</sup> as WBIG-FM. The community of license of WBIG-FM is located within the Washington, DC Metro, and WBIG-FM is reported by BIA as being "Home" to that Metro only. Contour overlap of the station to be modified also occurs with commonly-owned stations whose communities of license are located in the Washington, DC Metro, but which are declared home to the Frederick, MD Arbitron Metro.

#### Arbitron Market Study

WBIG-FM is reported by BIA as being "Home" to the Washington, DC Arbitron Metro. The number of stations attributable to CCC in this Arbitron Metro does not comply with the local radio ownership rules, as evidenced by Table 2 below. However, the existing combination of attributable stations, including WBIG-FM as currently licensed, is also not in compliance with the Arbitron Metro-based rules. This proposal maintains the *status quo* in the Washington, DC Arbitron Metro -- no stations are added to or removed from the Metro, nor is WBIG-FM's "Home" Arbitron Metro changed, by virtue of this instant application. Because this proposed modification would not create a "new violation" of the ownership rules, this existing combination of radio stations qualifies for grandfathering. See Note 4 to 47 C.F.R. Section 73.3555 (minor modification applications are subject to ownership restrictions only if implementing a change in an FM radio station's community of license or if new or increased concentration of ownership among commonly-owned media would be created); accord 2002 Biennial Regulatory Review--Review of the Commission's Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the Telecommunications Act of 1996, 18 FCC Rcd 13,620 at fn. 1033 (2003) (modifications of facilities in a grandfathered combination are prohibited if the proposed modification would create a new violation of the ownership rules).

### Interim Contour-Overlap Analysis

Because the community of the station to be modified, and the communities of all commonly-owned or attributable stations with overlapping principal contours with the station to be modified, are located in an Arbitron Metro, an interim contour-overlap analysis is not required.

### Conclusions

In the Arbitron Metro Market studied herein, there are at least 62 radio stations, including the subject commonly-owned 4-AM / 6-FM stations, which are home to the Washington, DC Metro. This proposal does not affect the existing number of commonly-owned stations in the subject Arbitron Metro.

Respectfully submitted,

Lance Nelms  
FCC Engineer
