

## CERTIFICATION

I, Edward Huerta, IT Manager and Designated Chief Operator for Entercom Miami License, LLC, licensee of station WAXY(AM), South Miami, Florida ("Entercom"), am authorized to make the following certification on behalf of Entercom and do hereby certify as follows:

1. Based on measurements made during the current six month STA period, station WAXY(AM) continues to experience interference from a co-channel station located in Cuba.
2. Interference is audible within WAXY(AM)'s normal listening area during both daytime and nighttime when WAXY(AM) is reduced to its original licensed power level of 5 kW. When operating at the authorized STA level of 25 kW, interference during the daytime is generally overcome. At nighttime, interference is still audible in some locations.
