Re: WBUJ-LP, Miami Shores, FL
Facility ID No. 192433
Barry University
BMPL-20160815AAJ

Dear Applicant:

The above-captioned application for a minor modification to a construction permit proposes to change channels from 258L1 to 254L1. The *Second Report & Order* in MM Docket 99-25 established the definition of a "minor change" as it applies to LPFM applications.¹ The Commission stated that minor changes of LPFM stations may include changes of frequencies to adjacent or IF frequencies or, upon a technical showing of reduced interference, to any frequency. The claim of interference from the authorized and currently unbuilt time share station, facility ID 194335, is insufficient to demonstrate reduced interference.² Therefore, the instant application specifying a non-adjacent channel change without an adequate technical showing of reduced interference violates Section 73.870(a)(1) of the Commission's Rules.³

In light of the above, application BMPL-20160815AAJ IS HEREBY DISMISSED. This action is taken pursuant to Section 0.283 of the Commission's Rules.⁴

Sincerely,

James D. Bradshaw
Deputy Chief
Audio Division
Media Bureau

¹ See *In the Matter of Creation of a Low Power Radio Service*, Second Order on Reconsideration and Further Notice of Proposed Rulemaking, FCC 05-75, (rel. March 17, 2005).

² Operation of WBUJ-LP on channel 254L1 would place it in the interference zone of co-channel class C1 station WKGR thereby increasing interference.

³ 47 C.F.R. § 73.870(a)(1).

⁴ 47 C.F.R. § 0.283.
