

Exhibit E-14

Attached to this map is a computer generated contour map, which illustrates the predicted 60 dBu (1 mV/m) service contour for the proposed facility. As this map demonstrates, the entire community of license, Fayetteville, Arkansas, would lie within the predicted 60 dBu service contour. As a result, the proposed facility would comply with the provisions of Section 73.515 of the Commission's Rules. This map was created through the utilization of a 30 second linearly interpolated terrain database.
