PETRACOM OF HOLBROOK, LLC  
KRFM RADIO STATION  
CH 243C - 96.5 MHZ - 100.0 KW  
SHOW LOW, ARIZONA  
September 2012

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Petracom of Holbrook, LLC ("Petracom"), licensee of radio station KRFM, Channel 243C, Show Low, Arizona. Petracom herein proposes to modify the license for KRFM by replacing one non-directional antenna system with another non-directional system, pursuant to §73.1690(c)(1) of the rules. Petracom is maintaining the same center of radiation as authorized. No other changes are proposed. An updated calculation of the transmitter power output of the modified KRFM facility is attached as Exhibit A.

As no permit was issued prior to the submission of this modification application, there are no conditions/restrictions to address. However, Petracom will reduce the power of the KRFM antenna, or cease operation in coordination with other users of the tower, to protect persons having access to the site from radiofrequency electromagnetic fields in excess of FCC guidelines.

Based on the foregoing, it is believed that the KRFM modification is in compliance with the Commission's rules.
