Subject: KDCG-CD License Changes (Fac. Id 349)

Attachments: KDCG-CD FCC Form 302-CA (eng exh).pdf
Hossein:

Per our conversation this morning about the dismissed application to replace a directional antenna we filed last year for KDCG-CD pursuant to 73.1690(c)(3), attached please find the antenna pattern information. An ERI AL8-22 (Custom) directional antenna replaced the licensed SCALA Model SL-8 directional antenna. The horizontal plane relative field pattern for the ERI AL8-22 custom antenna is identical to the licensed SCALA SL-8 antenna as indicated in the attached file.

The only other license change is to transmitter output power, which should now be 1.362 kW instead of 1.94 kW. Max ERP of 15 kW did not change.

Please advise if you need anything further to update the record, and thank you for your assistance in this matter.

Regards,

Joe
