**December 2011**

**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Volt Radio, LLC, As Trustee ("Volt"), licensee of radio station KYNF, Channel 235C2, Prairie Grove, Arkansas. Volt holds an outstanding permit which authorizes a change of community of license for KYNF from Prairie Grove, Arkansas to Cedarville, Arkansas (BPH-20110301ACH). Volt herein submits a license application to cover the outstanding permit. A calculation of the transmitter power output of the KYNF transmitter is attached as Exhibit A.

There are three conditions/restrictions on the KYNF permit. The first condition states that Volt will reduce the power of KYNF, or cease operation in coordination with other users of the tower, to protect persons having access to the site from radio frequency electromagnetic fields in excess of FCC guidelines. Volt will comply with this condition. The second condition states that Channel 235C2 has been deleted from Prairie Grove, Arkansas and Channel 235C2 has been added to Cedarville, Arkansas. Volt acknowledges this condition.

The third condition states program tests for KYNF at Cedarville, Arkansas will not commence with the facilities authorized in BPH-20110301ACH until program tests for KMCK-

FM at Prairie Grove, Arkansas commence with the facilities authorized in BPH-20110301ACG and that a license will not be granted for KYNF until a license is granted for KMCK-FM at Prairie Grove, Arkansas. Volt acknowledges this condition. Based on the foregoing, it is believed that KNYF is in compliance with the Commission's rules and that all conditions have been met.
