

**WOOD License Company, LLC
WOTV, Battle Creek, MI**

**EXHIBIT NO. 10
FCC Form 314
Section III, Paragraph 3**

With the filing of this application, Assignor Channel 41, Inc., licensee of television station WOTV, Channel 41, Battle Creek, Michigan ("Station"), is placing in the public inspection file of the Station, and the parties are submitting to the FCC contemporaneously with the filing of this application, a copy of the Asset Purchase Agreement, dated as of October 24, 2001, between Channel 41, Inc. and WOOD Television, Inc., a subsidiary of LIN Television Corporation, the sole member of the Assignee WOOD License Company, LLC.¹ Under separate cover, the parties are submitting for association with this application the following previously-filed documents entered into in 1991: Programming (LMA) Agreement dated October 30,

¹ It is contemplated that WOOD License Company, LLC will hold the FCC authorizations of WOTV, while its sister entity WOOD Television, Inc. will hold the other assets. Pursuant to FCC policy, in the event of a subsequent sale, the FCC authorizations and other assets of the station would be sold together.

1991 (as amended) and Option Agreement dated November 11, 1991.²

The agreements comply with the FCC's rules and policies.³

² The LMA is "grandfathered" under the FCC multiple ownership policies as it was entered into between the parties prior to November 5, 1996. A copy of the LMA was previously filed with the FCC pursuant to paragraph 149 of the FCC's August 6, 1999 *Television Ownership Report & Order*. The term of the LMA (which exceeds 8 years) is consistent with precedent predating the LMA (see Assignor's Exhibit No. 4) and with the FCC's later decision to grandfather pre-November 5, 1996 LMAs and to allow such agreements to be renewed at least through the 2004 biennial review.

³ All the schedules and exhibits to the agreements are not included, but they will be provided to the FCC on request.
