

**MINOR CHANGE APPLICATION**  
**INSPIRATION TIME, INC.**  
**NEW FM TRANSLATOR STATION**  
**CH 277D - 103.3 MHZ - 0.2 KW**  
**ERIE, PENNSYLVANIA**  
**March 2018**

**TECHNICAL STATEMENT**

This Technical Statement and attached exhibits were prepared on behalf of Inspiration Time, Inc. ("ITI"), applicant for a new FM translator station on Channel 277D at Erie, Pennsylvania (FAC ID 200813). ITI is herein submitting the long form construction permit application for the "Tech Box" application for this facility, pursuant to Public Notice DA 18-191, released February 27, 2018.

The proposed Channel 277 antenna is to be located on an existing structure which is registered with the FCC and assigned Antenna Structure Registration Number 1206724; as such, the FAA was not apprised of this proposal.

ITI proposes to rebroadcast the signal of AM station WZTE. WZTE is currently licensed on 1530 kHz in North East, Pennsylvania (BZ-19900328AD) and holds a construction permit to relocate to Union City, Pennsylvania (BP-20170221ACI). The proposed Channel 277 60 dBu contour is within 25.0 miles (40.0 kilometers) of both the licensed and permitted WZTE tower; therefore, it is considered a fill-in translator. Exhibit A is a map demonstrating compliance with the fill-in requirements.

Exhibit B is a study demonstrating that the proposed Channel 277 will not cause interference to any full service station, nor will interference be delivered to or received from any existing FM translator or LPFM application.

As noted on Exhibit C, the 34 dBu (50/10) contour of the proposed translator does not cross over any Canadian land mass. If necessary a waiver of the contour distance and coordination with regard to Canada is respectfully requested.

All other necessary documentation used to certify the technical portion of FCC Form 349 has been forwarded to ITI is available to the Commission upon request.<sup>1</sup>
