

## Exhibit 8

KOFI, Inc. holds Construction Permit BMPH-20111115AHO for station KOLK, Lakeside, MT. The facility is constructed in full accordance with this construction permit with the exception of the replacement of the Shively Model 6810 antenna with a Rymosa Model AT12-202 antenna. There are no changes in ERP, azimuth pattern, or center of radiation.

Please see Exhibit 10 for the Environmental Statement incorporating this antenna change.
