

CHARACTER ISSUES

Ruby Mountain Broadcasting, LLC the licensee of Station KENV-DT, Elko, Nevada, has no unresolved character issues pending against it. However, its parent company, Intermountain West Communications Company, is the licensee of several other broadcast subsidiaries which are the subject of outstanding objections against them based on alleged rule violations. These include the following:

1. Oregon Trail Broadcasting Company

On December 17, 1999, The Post Company, the licensee of Station KIFI-TV, Idaho Falls, Idaho, filed a supplement to its earlier Petition to Deny dated May 15, 1999 alleging, among other things, that Sunbelt Communications Company (now Intermountain West Communications Company), the parent company of Oregon Trail Broadcasting Company, had violated the FCC's multiple ownership rules because of familial ties between and among Sunbelt Communications Company and Intermountain West Communications Company, the parent company of Oregon Trail Broadcasting Company, and Meridian Communications of Idaho, Inc., permittee of new UHF TV Station on Channel 20, Idaho Falls, Idaho [Facility ID 41238], because of what they allege to be attributable interests in the family of James Rogers and his children.

On December 17, 1999, The Post Company filed a petition to deny and revoke the licenses held by Intermountain through its subsidiaries for Station KPVI-DT, Pocatello, Idaho and KXTF(TV), Twin Falls, Idaho, claiming there were substantial family, ownership and business relations between Meridian Communications of Idaho and Intermountain.

On January 27, 2000, Fisher Broadcasting, Inc. the then-licensee of Station KIDK(TV), Idaho Falls, Idaho, also filed comments in support of The Post's petitions stating it was concerned also about the relationship between Sunbelt and Meridian. They also questioned the propriety of a local marketing agreement between Sunbelt's Station KXTF(TV), Twin Falls, Idaho and Compass Communications of Idaho, Inc. ("Compass"), the licensee of Station KFXP(TV), Pocatello, Idaho.

In its *Memorandum Opinion and Order* released January 11, 2011, the full Commission rejected the allegations of improper relations between Intermountain and Meridian. Left unaddressed in that decision was the question raised that Intermountain controls or has an attributable interest in Station KFXP(TV) due to a local marketing agreement which existed between the parties.

Please be advised that as of March 21, 2013, Compass Communications of Idaho and Intermountain West Communications Company and its subsidiary, Falls Broadcasting Company, entered into an agreement to terminate the time brokerage agreement between Intermountain West and Falls Broadcasting and Compass Communications. A copy of that termination agreement signed by both parties is attached hereto.

Please also note that Station KFXP has gone silent as of June 30, 2013 and remains off the air as of date (*see* BLSTA-20130710ABY), granted July 12, 2013.

2. Beartooth Communications Company

In its *Memorandum Opinion and Order* of January 11, 2011, the Commission took note that a joint sales agreement and a shared services agreement, a construction and lease agreement and a co-location/co-use agreement existed between Rocky Mountain Broadcasting Company and Beartooth Communications Company (“Beartooth”), a wholly owned subsidiary of Intermountain West with regard to the operation of Station KMTF(DT), Helena, Montana. Not noted in that *Memorandum Opinion and Order* was the fact that an earlier time brokerage agreement between Rocky Mountain Broadcasting and Beartooth Communications had been terminated as of August 15, 2005. Since that time Rocky Mountain has programmed Station KMTF via network affiliation agreements independently negotiated by Rocky Mountain with the following networks:

Name	Start Date	Termination Date
WB	July 1, 20005	March 23, 2006
CW	March 28, 2006	September, 2014

But for the Shared Service Agreement and the Joint Sales Agreement, there are no other on-going agreements with Beartooth or Intermountain West.
