Subject: RE: WREX-DT and WTHR-DT

Mr. Grossniklaus,

Brady Dreasler, Director of Facilities, Capital Projects & Broadcast Engineering of Quincy Newspapers, Inc., has authorized me to write on behalf of WREX Television LLC ("WREX"), permittee of post-transition WREX-DT, Channel 13, Rockford, Illinois.

WREX does not object to the additional interference that theoretically would affect 10,464 (0.7163%) of the total service population established by the Appendix B facilities of WREX-DT (12.4 kW directional ERP at 216 meters HAAT) by the proposal of WTHR-DT, Channel 13, Indianapolis, Indiana, to maximize to 22.0 kW at 299 meters HAAT pursuant to FCC File No. BMPCDT- 20080620AMQ.

This expression of non-objection is limited and should not be construed to extend to any other facilities proposed or to be proposed by either WREX-DT or WTHR-DT in the future.
