

Assignment of License
Rainbow Radio, LLC, Assignor, to
Urban Radio of South Carolina, L.L.C., Assignee
Section III, Question 6
Exhibit 14

STATEMENT OF WILLIAM J. GETZ
IN SUPPORT OF AN APPLICATION FOR
CONSENT TO ASSIGNMENT
OF BROADCAST LICENSE

Applicant: Urban Radio of South Carolina, L.L.C.

STATEMENT OF WILLIAM J. GETZ
IN SUPPORT OF AN APPLICATION FOR
CONSENT TO ASSIGNMENT
OF BROADCAST LICENSE

Applicant: Urban Radio of South Carolina, L.L.C.

I am a Radio Engineer, an employee in the firm of Carl T. Jones Corporation, with offices located in Springfield, Virginia. My education and experience are a matter of record with the Federal Communications Commission.

This office has been authorized by Urban Radio of South Carolina, L.L.C. ("Urban Radio") to prepare this statement and the associated figures in support of an Application for Consent to Assignment of Broadcast License (FCC Form 314).

Urban Radio currently owns WOIC(AM) and WARQ(FM), both licensed to Columbia, SC, WMFX(FM), St. Andrews, SC and WWDM(FM), Sumter, SC in the Columbia, South Carolina area. Urban Radio proposes to acquire WZMJ(FM), licensed to Batesburg, SC, and WHXT(FM), licensed to Orangeburg, SC. The principal community contours of the proposed FM stations overlap other stations owned by Urban Radio, but they do not overlap each other.

As shown in Figure 1, the proposed acquisition creates two separate radio markets: the WZMJ(FM)/WWDM(FM) radio market (hereafter referred to as Radio Market #1) and the WHXT(FM)/WWDM(FM)/WARQ(FM) radio market (hereafter referred to as Radio Market #2).

Pursuant to Section 73.3555(a)(1)(i) of the FCC Rules, Urban Radio is permitted to own the

two radio stations in Radio Market #1 (two stations in the same service) if it is served by at least four operating commercial radio stations (i.e. Urban Radio is not permitted to own more than 50 percent of the stations in the radio market). Similarly, Urban Radio is permitted to own the three radio stations in Radio Market #2 (three stations in the same service) if it is served by at least six operating commercial radio stations.

For the FM stations considered herein, the principal community contour is the predicted 3.16 mV/m (70 dBu) contour computed in accordance with Section 73.313 of the FCC Rules. For the AM stations considered herein, the principal community contour is the predicted daytime 5.0 mV/m groundwave contour computed in accordance with Section 73.183 of the FCC Rules. All AM and FM facilities represented herein are operating commercial radio stations.

The principal community contours of at least 4 commercial radio stations (in addition to the two subject stations) are predicted to overlap all or a portion of proposed Radio Market#1, and at least 6 commercial radio stations (in addition to the three subject stations) are predicted to overlap all or a portion of proposed Radio Market #2 with their principal community contours. The transmitter sites of 9 of the 11 commercial radio stations counted in the markets are located within one or both of the radio markets. The transmitter sites are plotted in Figure 1 and keyed on Figure 2.¹ Figure 2 contains each station's call sign and channel of operation.

¹ Two radio stations (WLXC(FM) and WFMV(FM)) operate from transmitter sites located outside the radio market. However, these stations will provide city-grade coverage to a portion of the radio market and are therefore counted as stations in the radio market.

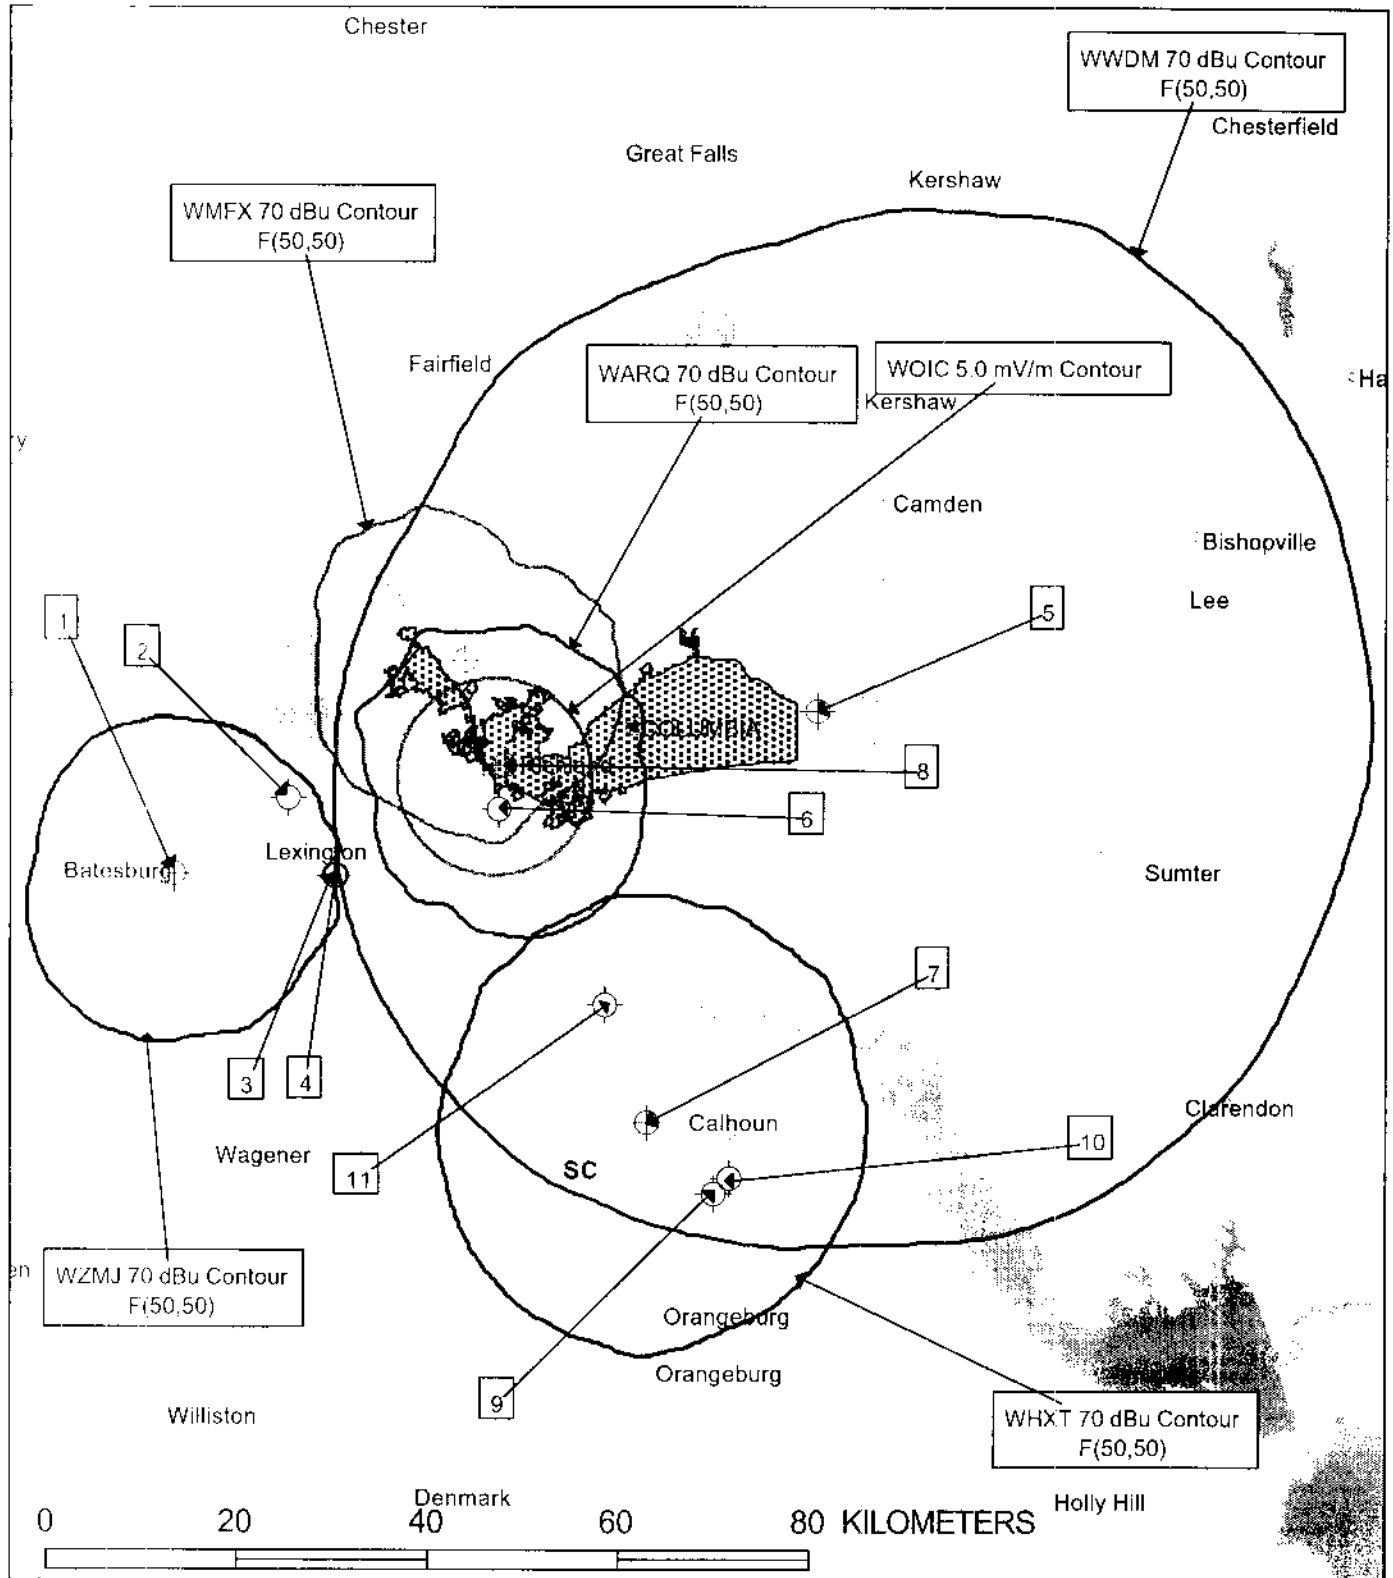

STATEMENT OF WILLIAM J. GETZ
