

REQUEST FOR SPECIAL TEMPORARY AUTHORITY FOR SEPARATE
ANTENNA FM DIGITAL OPERATION
KQMR(FM) FACILITY ID 22977
Channel 262C
Globe, Arizona
UNIVISION RADIO LICENSE CORPORATION

Univision Radio License Corporation hereby requests special temporary authority to operate separate antenna FM Digital operation using iBiquity Digital Corporation's HD Radio™ technology pursuant to FCC Public Notice MM Docket No. 99-325, DA 04-712, March 17, 2004. Univision plans to commence digital operation upon the grant of this special temporary authority.

The licensed main for the facility BMLH-20050815AEE and licensed auxiliary for the facility, BXLH-20061030AJU are licensed at the same coordinates: N33°-17'-23" W110°-51'-53". The HAAT of the auxiliary is 93.4% of the HAAT of the main. The height of the auxiliary antenna is 1969 meters AMSL, 30 meters AGL and 583 meters HAAT. There will be no changes made to the licensed main. The analog transmitter power out will remain 28.5 Kilowatts. The digital transmitter power out will be .640 Kilowatts.

Operation of the digital facility requested in this special temporary authority will not cause human exposure to non ionizing electromagnetic radiation levels greater than those specified in 1.310. This was demonstrated in the application for construction permit: BXPB20060118ACX.

The technical contact in the event of interference is:
Chuck Beck who can be reached at (602) 308 7965.
