CLINTON, MISSOURI
June 2004

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Legend Communications of Missouri, LLC ("Legend"), licensee of radio station KDKD-FM, Channel 237C3, Clinton, Missouri. Legend holds an outstanding construction permit which authorizes minor changes in the facilities of KDKD-FM (BPH-20040326ADV). This instant application seeks a license cover the outstanding permit. A calculation of the transmitter power output of the KDKD-FM transmitter is attached as Exhibit A.

There was a lone condition/restriction on the KDKD-FM permit. The condition relates to radio frequency radiation issues at the transmitter site. Legend herein restates that it will, in cooperation with other tower users, reduce the power of KDKD-FM or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed that KDKD-FM is in compliance with the Commission's rules, and as such, is operating pursuant to automatic program test authority with the facility authorized in the permit.
