RE: Notification of Resumption of Operations  
Station KFXD(AM), Boise, Idaho – Facility Id. 63915  
Townsquare Media Boise License, LLC – FRN: 0016-1708-13

Dear Ms. Dortch:

On behalf of Townsquare Media Boise License, LLC, the licensee of AM broadcast Station KFXD, Boise, Idaho (Facility Id. 63915), this is to notify the Commission that KFXD has resumed operations within licensed parameters.

The station was granted special temporary authority to operate at variance from its licensed parameters. The STA was necessary due to conditions on the land surrounding the station's ground system. A land tenant flooded the surrounding area in order to grow feed for its grazing animals. The flooding affected the station's antenna system by altering the ground conductivity and the towers' impedances.

Subsequent to the submission of the most recent extension of the STA (BESTA-20140910ABR), the licensee determined that the station's directional antenna system had returned to operation within licensed parameters without the need for adjustment to the station's facilities. In fact, no technical changes to the station were required and the station is now operating within licensed parameters.

In the absence of any technical changes to the station, Townsquare Media Boise License, LLC does not believe it is necessary to prepare a proof and file a Form 302-AM application. The licensee will continue to monitor the station's operations and confirm that its operation remains within licensed parameters in accordance with the Commission's rules.
