RECEIVED

Dear FCC Secretary and Mr. Bradshaw,

I sent the following complain via email to the FCC online complaint e-mail address;

I am the vice-president of Morongo Basin Broadcasting Corporation, owners and operators of FM Radio station KCDZ, licensed to Twentynine Palms California. We are getting a severe interference in our established broadcast contours from what is supposed to be a translator on the same 107.7 FM frequency in Palm Springs, California.

The licensee is listed online as Advance Ministries Inc, DBA A New Life Christian School

Call sign: K299BI

file #: BMPFT-20161208ACI

On January 6, 2017, Margo Domon-Davenport of the FCC responded and instructed me, "Thanks, but the information must be mailed via the U.S. Postal service to the FCC address provided below. E-Mail is not a valid submission. It would be best to mail all the submissions to the FCC at one time.

She also let me know the complaint cannot come from the licensee but a member of the public. She provided me with questions for the complainant to answer.

Where they listen to KCDZ when the interference occurs

Information about the device(s) they use to listen (ie – Sony clock radio, factory installed radio an automobile, etc.)

When the interference started

Their contact information

The listener, Scott Sowell of Joshua Tree provided these answers to the queries;

The interference occurs in south Palm Springs to Morongo Valley. This is in a factory installed radio in an automobile. I noticed the interference Christmas 2016..Contact info is, [760-366-3716](tel:760-366-3716) or crabtreesowell@gmail.com

I work in the low desert and have always for the last 10 years been able to receive Z107.7 on my car radio on interstate 10 @ Indian Ave. I no longer receive Z107.7 until I am in the Morongo Valley. This other station has totally stomped on my favorite station. Thank you for your concern.

Scott Sowell.

Thank you for your attention to this matter,

A handwritten signature in black ink, appearing to read 'G. Daigneault'.
