

**Compliance with Special Conditions of Construction Permit
W296AT Catskill, NY
Facility ID No. 37231**

Special Condition 1

WCKL (AM) Catskill, NY permanently ceased operating from its authorized transmitter site on November 30, 2012 and removed its transmitting equipment as evidenced in the photographs in figures 1, 2 and 3 below. There are no publically accessible FCC records indicating the present WCKL antenna location or its present facilities, if any. Therefore, we believe this condition has been satisfied.

Special Condition 2

The tower is surrounded by a fence with a locked gate with appropriate warning signs and the Licensee will see that signs remain posted in the vicinity of the tower, warning of potential radio frequency hazards at the site. The applicant will cooperate with other users of the tower to reduce power of the facility, or discontinue operation, as necessary to limit human exposure to levels less than specified by the Federal Communications Commission should anyone be required to climb the tower for maintenance or inspection.
