**SITE INFORMATION**

The proposed site is located in rural Limestone County and is accessed by Limestone County Road 326. The plot has been used for farming and other agricultural purposes for many decades. The proposed tower construction will not alter the topography of the land. The four new towers, all under 158' above ground level will not have obstruction lighting or paint, as none is required. The bases of the towers will be fenced to a minimum distance of 2 meters. This exceeds the standards in OET Bulletin 65 "Evaluating Compliance with FCC Guidelines for Human Exposure to Radiofrequency Electromagnetic Fields" Supplement A, Edition 97-01 for a .25 wave radiator at 1590 kHz.

The site was researched on the National Park Service web site. There is no record on the National Register of Historic Places within nine miles of the proposed site. There is no listing on the Texas Historical Commission nor designated marker for the site. There is no listing for the site in the "Culturally Unidentifiable Native American Inventory database". The site was researched on the U.S. Fish and Wildlife Service web site and is not listed as a wetland or wildlife refuge. The site is not designated as a National Park Service or Fish and Wildlife Wilderness. The site is not in or near a National Forest Service Wilderness. The appropriate form 620 and other notifications are being filed at this time by the applicant.

See the following pages for photographs looking each direction from the proposed site.
