

AGREEMENT

This agreement acknowledges the fact that Faith Communications Corporation, licensee of KMZO FM in Hamilton, Montana, is planning to increase the ERP of this station to 5.0 K W. With the increased ERP, the interfering contour of KMZO has some overlap with the 47 dbu contour of KTVM, channel 6 from Butte, Montana.

Faith Communications Corporation agrees to notify Eagle Communications, Inc., licensee of KTVM, when the increase in power is to occur.

Faith Communications Corporation also agrees that it will remedy any interference to KTVM viewers, as it own expense, in the event that any interference should occur.

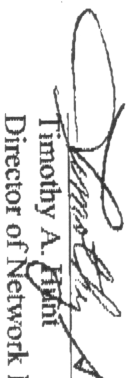

In light of this agreement, Eagle Communications, Inc. has no objection to the proposed increase in power of KMZO.

Eagle Communications, Inc.
