EXHIBIT 10 A

Ammendment to exhibit 10 APPLICATION DNPDTL 20090825BUZ ID 182804

The license of K50IB is not valid because Marsha Turner/Marsha Turner Enterprises did not build the station according to this new evidence.

K50IB is licensed to tower 1230304. George Glinatsis is the Territory Manager-Business development for American Tower.

Attached e-mails indicate that Marsha Turner has NEVER had an agreement with them and has NEVER leased any space on this cell tower in Smithfield. This explains why no one has ever seen the station on the air, which is the cell tower closest to the camera in the picture in the previous exhibit.

Even though Marsha Turner told the FCC she had built the station on the tower, the records show that was not true. She did however get a license for K50IB even though it was not built.

In fact, the license and two STA applications to remain silent, were granted with the understanding that a station had been built.

Because this station has never been built, and because it has not been on the air for over one year after the expiration of the last STA to remain silent, Airwaves, Inc respectfully requests that you cancel the license of Marsha Turner and grant our application for a new station on channel 50.

John C. Terrill
President

John;

I don't know how to be any more specific.

We have absolutely no record of Marsha Turner on any of our assets since ATC has been a Company which dates back to 1999.

Hi George,

The FCC wants to hear one year, so if you will please add silnce July 1 of 2008 then they will know that even though she says she is now and has

been broadcasting from your tower, she has not been. FCC says one

year and the station is vacant.

Thanks

John

Thanks George,

For our purposes we need to know if Marsha Turner leased space on your tower during the year starting July 1, 2008 thru July 1, 2009
Thanks for your consideration.

John

John;

We have no record of Turner enterprises having a lease on the above mentioned site.

If she had an agreement with ATC or Spectrasite, she should be able to provide a copy of the lease agreement.

Call with questions.

Good Morning George,

Your letter or return e-mail will be very helpful in establishing the non existence of K50IB Licensed to Marcia T. Turner DBA Turner enterprises.

The channel 50 station, should be on your tower with four Scala Paraflectors pointed south.

The tower in question is 1230304 in Smithfield, Utah with both Sprint and Cricket now on the tower.

I seek to show that K50IB has not been broadcasting from your tower for a period of one year since July 1, 2008.

A statement from you that K50IB has not been on your tower in that time period will be very helpful.

Thank you for your consideration.

John Terrill
