

CERTIFICATE

I, Philip Baker, Technical Consultant of Station WBAC, Cleveland, Tennessee, hereby certify that there is a fence surrounding the WBAC tower and is at all points at least 2.0 meters from the base of the tower. This fence is a chain link 6 foot in height with 1 entrance gate and is locked and secured at all times when station personnel are not at the tower site. There are warning signs of potential radio frequency electromagnetic hazards posted on the fence at intervals of 10 feet.
