

Exhibit 16

Radio One of Indiana Licenses, LLC ("ROIL"), a wholly owned indirect subsidiary of Radio One, Inc., is the licensee of Station WTLC-FM, Greenwood, Indiana. Radio One Licenses, Inc., a wholly owned indirect subsidiary of Radio One, Inc., acquired Station WTLC-FM on June 8, 2000, and assigned that license to ROIL as of 12/31/01. At the time Radio One Licenses, Inc. acquired the station, Station WTLC-FM (then WBKS (FM)) had pending before the Commission an application to modify the station's facilities. *See* BPH-19980904IE. The Commission granted the modification application on October 13, 2000, and issued a construction permit. On February 26, 2001, Radio One Licenses, Inc. filed an application for license (the "License Application") to cover the construction permit and for program test authority. *See* BLH-20010226AAP. Martin Hensley filed a letter dated May 23, 2001, "to serve either as a Petition to Deny or as an informal objection." Among the issues raised by Mr. Hensley, was an allegation that the licensee had misrepresented information in the License Application. The Licensee filed an "Opposition to Informal Objection" on July 13, 2001, in which it vigorously opposed Mr. Hensley's allegations. The License Application remains pending before the Commission.

The WTLC-FM matter is not an impediment to a grant of this application. Radio One Licenses, Inc. demonstrated in response to Mr. Hensley's allegations that the public interest would be served by a grant of the License Application. Moreover, there would be no public interest justification for failing to take prompt action on this license application for WRNB. Grant of this application should have no impact on the Commission's consideration of the License Application.
