

SAINTE SEPULVEDA, INC.
BT KBVU-DT - Eureka, CA - Fac ID 58618

EXHIBIT 42
Engineering Statement

The applicant is presently authorized, under File No. BPCDT-199901020ACF, to construct the reference station. In order to provide an improved service, it is now proposed to relocate to a nearby tower and to make other engineering changes (summarized in attached Exhibit 42A). However, as shown in attached Exhibit 42B, the authorized service contour is not exceeded at any point over land areas of the United States.
