NEW (FM) MM-FM904-C3 Franklin, LA (Fac Id 190402)  
NEW (FM) MM-FM941-C Lead, SD (Fac Id 190403)  
NEW (FM) MM-FM963-A Mona, UT (Fac Id 190404)

Due to the fact that Alexander Berger is the sole officer and director and holds a 51% majority equity and voting interest in Alex Media, interests held by minority stockholders Darryl Delawder and Evan Carb are not cognizable or attributable to Alex Media under current Commission Policies and Rules.<sup>1</sup>

Because neither Alex Media, nor its sole majority shareholder holds a cognizable interest or local marketing agreement in any existing FM or AM station with any overlapping predicted contours with the proposed station, a grant of the instant application will result in Alex Media having a cognizable interest in but a single FM station in the market and would therefore comply with the requirements of 73.3555(a). If the Market were BIA rated and the proposed station were included in such defined market, because Alex Media would have but a single station within the Market, it would comply with the most restrictive limitation on station holdings for BIA defined markets and would therefore be compliant with the requirements of 73.3555(a).

---

<sup>1</sup> Alex Media's two non-cognizable minority shareholders, Evan Carb and Darryl Delawder hold interests through Miriam Media, Inc., in FM construction permits for KMLS (FM) Miles, TX (Fac Id - 170983) – CP Off Air and KMMI (FM) Loleta, CA (Fac Id - 170982) – CP Off Air. Such interests are not attributable to Alex Media, and in any event would not overlap the contour of the proposed station.

Accordingly following a grant of the instant application, Alex Media and its sole majority shareholder will remain in full compliance with the multiple ownership restrictions contained within Section 73.3555(a) of the Commission's Rules.
