

The map illustrates the proposed WEMW-CD TX site at 9 kW ERP, 233.2 m AGL, SL8 to 30 degrees true. It shows the 51 dBu contour for Ch 19, the 50, 10, 76 dBu interfering contour, and the 95km preclusion for channel 19 from LM 18 Pittsburgh. The map also shows the WRCB-TV and WPCB-TV stations and their 51 dBu contours.

The outer black contour must stay east of blue line.
