

EXHIBIT 12

Waiver Request of Section 74.1204

Modification of CP to K215EI Henderson, NV - 10 Watts ERP

Calvary Chapel of Twin Falls, Inc. 6/06

The proposed site is contained entirely inside the service contour of second-adjacent station KSOS, Las Vegas and third-adjacent station KUNV, Las Vegas.

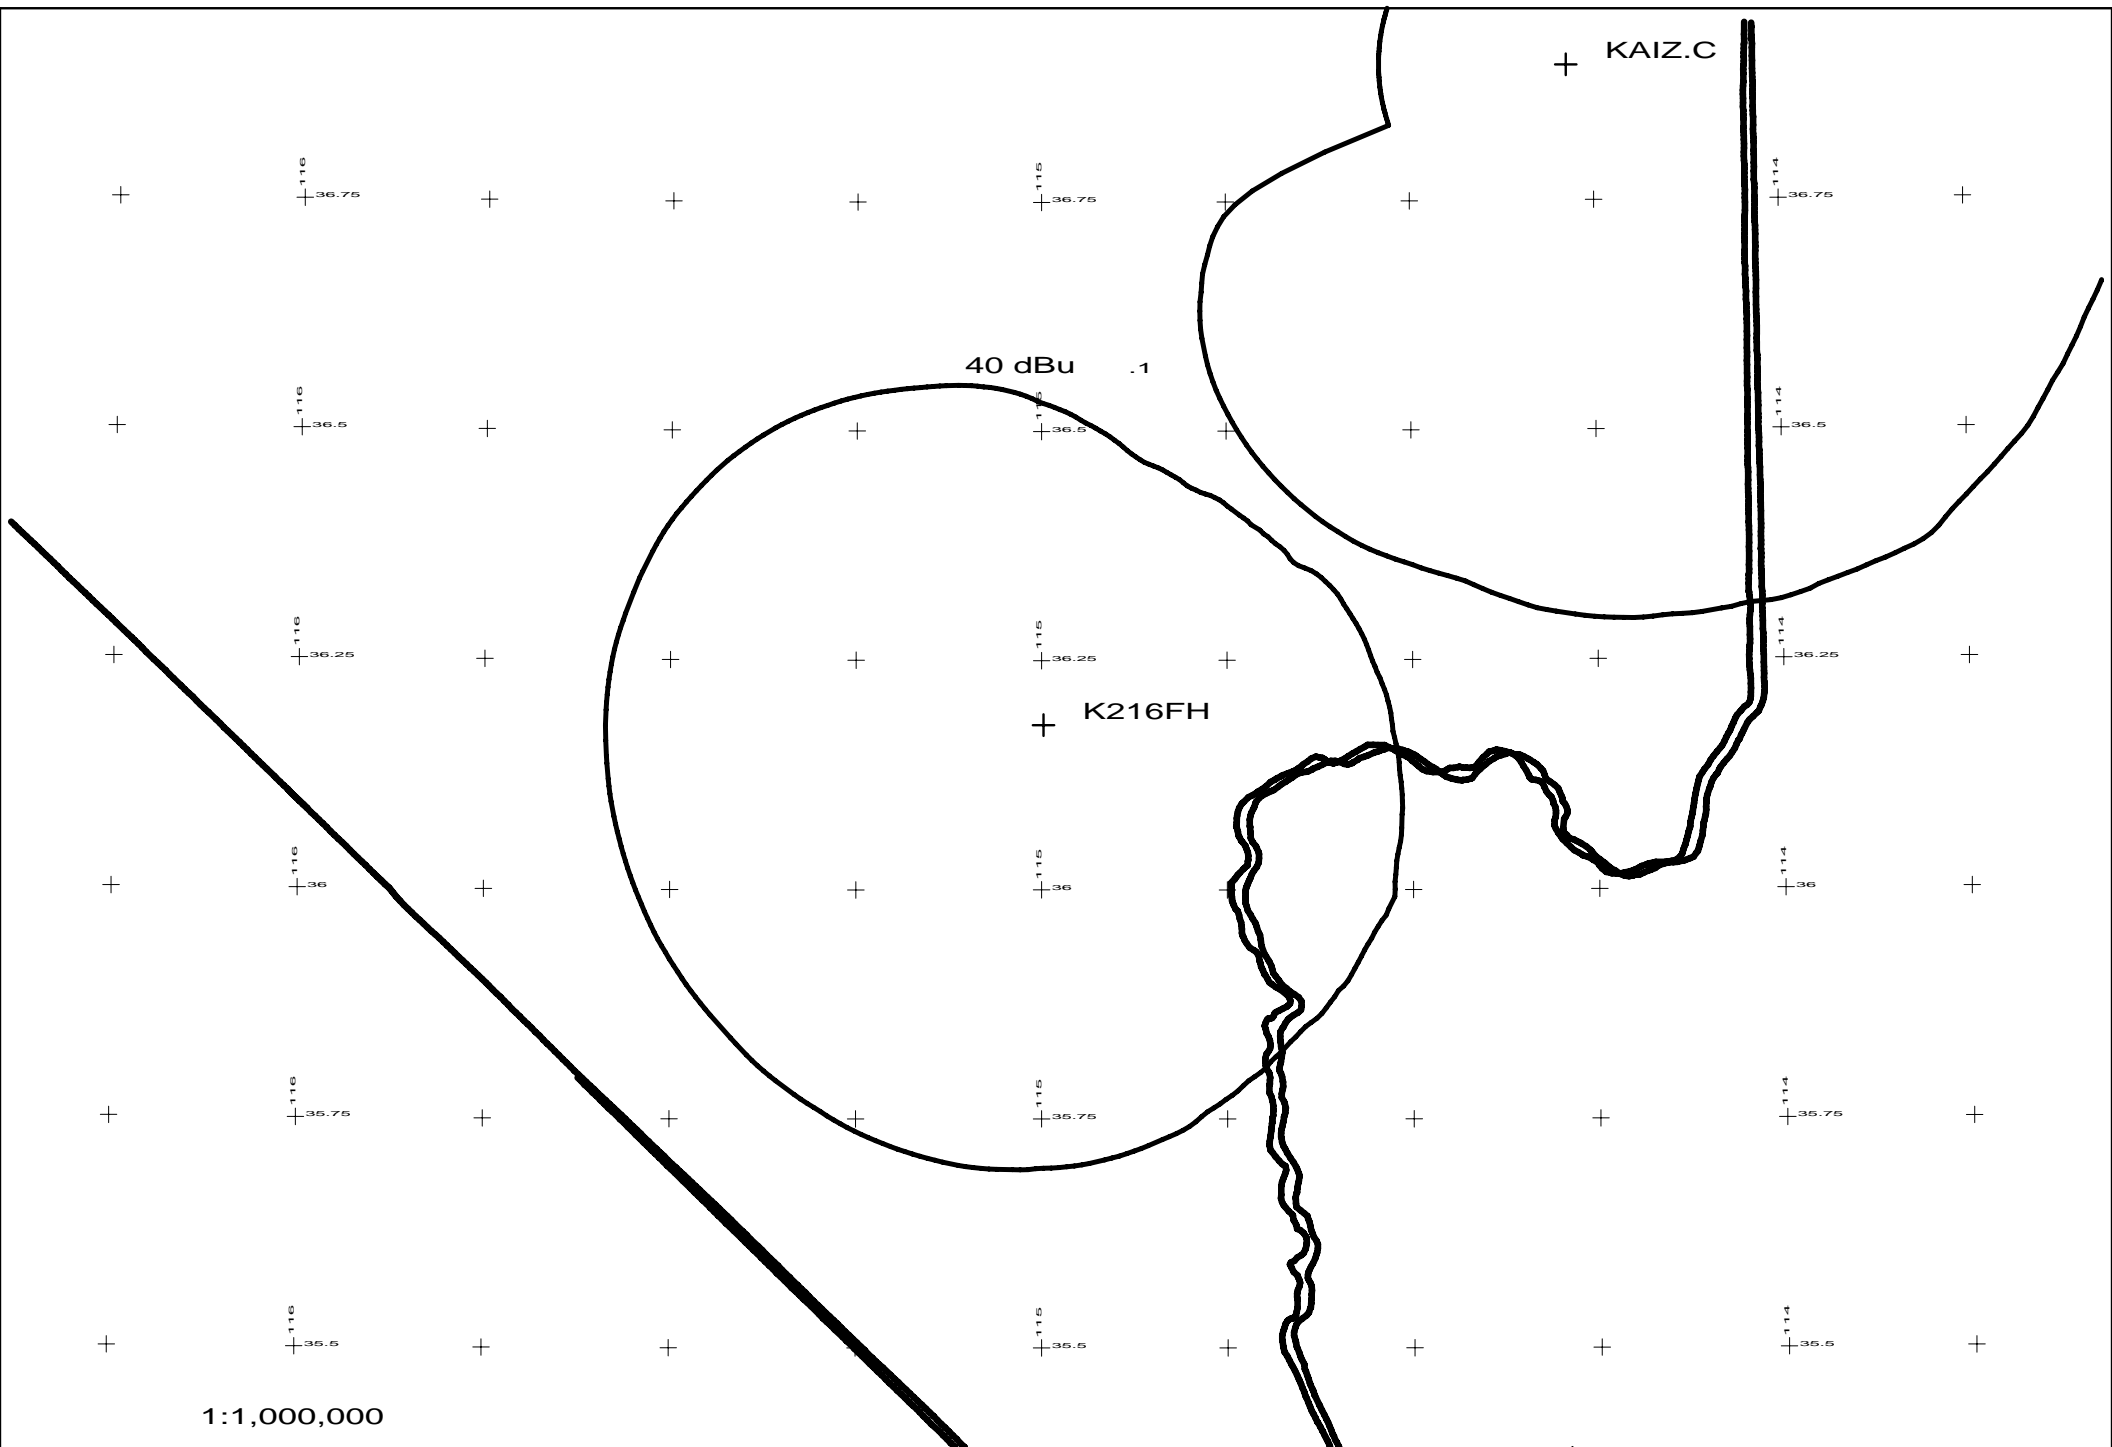

KSOS

The proposed site is contained entirely inside the service contour of second-adjacent FM Station KSOS, Channel 213, Class C, 100kW, Las Vegas, NV. The level of least arriving protected F(50,50) signal at the proposed transmitter site is 94.1-dBu. Using the Undesired-to-Desired method for calculating proposed interference, the interfering contour with respect to KSOS is in excess of 134.1-dBu (free-space contour method employed). The interfering signal would, in the worst case at the maximum radial, extend 4 meters from the Center of Radiation, which is proposed at 8 meters AGL. This interference contour does not touch the ground. Attached is a portion of the Topographic Map Frenchman Mountain, showing that this site is not in a populated area. This is a designed communications site located on Frenchman Sunrise Mt and there are no residences, businesses or important roadways that are located close to the tower. Calvary Chapel of Twin Falls, Inc. respectfully requests a waiver of the FM translator contour overlap regulations with respect to second-adjacent channel KSOS.

KUNV

The proposed site is contained entirely inside the service contour of third-adjacent FM Station KUNV, Channel 218, Class C, 15kW, Las Vegas, NV. The level of least arriving protected F(50,50) signal at the proposed transmitter site is 85.2-dBu. Using the Undesired-to-Desired method for calculating proposed interference, the interfering contour with respect to KUNV is in excess of 125.2-dBu (free-space contour method employed). The interfering signal would, in the worst case at the maximum radial, extend 12 meters, or .012km from the base of the tower. Attached is a portion of the Topographic Map Frenchman Mountain, showing that this interference contour does not have any residences, businesses or major roadways with it. This is a designed communications site located on Frenchman Sunrise Mt and there are no residences, businesses or important roadways that are located within the contour. Calvary Chapel of Twin Falls, Inc. respectfully requests a waiver of the FM translator contour overlap regulations with respect to third-adjacent channel KUNV.
