

# ACTION COMMUNITY TELEVISION, INC.

## STATEMENT OF EDUCATIONAL PURPOSES AS APPLIED TO RADIO BROADCASTING

The corporation has over thirty-two years of educational programs in our local area. We have served as a place for community and private colleges to place interns for academic credit working with our experience staff and volunteers. Our community outreach areas include “anti gang” messages for teenaged youths, instruction for local sports participation, legal aspects of starting or furthering a business, and programs teaching music production and appreciation.

Action Community Television has assisted numerous young and old persons in the community to develop skills and content for the local cable access channel with Suddenlink Communications. We have also been able to develop ‘hands on’ computer editing and production management training experience for citizens within our proposed LPFM predicted coverage area in central Rocky Mount, NC.

We have had participants win awards for their local programs as submitted from such groups as that formally known as the Community Broadcasters Association which represented many low power television stations until its disbanding several years ago.

Gospel music is a large and growing part of the culture of our area. We have a special interest and intent to amplify and educate children and adults in the appreciation and knowledge of this art form.

Respectfully submitted,

James Jones
