Re: WUVS-LP, Muskegon, Michigan
Facility Identification Number: 125796
West Michigan Community Help Network
Special Temporary Authorization

Dear Mr. Billings:

This is in reference to the request filed July 11, 2007, on behalf of West Michigan Community Help Network ("WMCHN"). WMCHN requests special temporary authority ("STA") to operate Station WUVS-LP with temporary facilities.¹ In support of the request, WMCHN states that it has been given an eviction notice to vacate the licensed site because the building is being closed. WMCHN states that air conditioning has been shut down making the environment highly uncomfortable. WMCHN requests STA for operation of Station from a temporary site 950 feet north-northwest of the licensed site.

Our review indicates that the proposed STA operation is not likely to cause interference to any other station.

Accordingly, the request for STA IS HEREBY GRANTED. Station WUVS-LP may operate with the following facilities:

Geographic coordinates:	43° 14' 19" N, 86° 15' 5" W (NAD 1927)
Channel	279 (103.7 MHz)
Effective radiated power:	0.1 kilowatt (H&V)
Antenna height:	
above ground:	25 meters
above mean sea level:	212 meters
Above average terrain:	22 meters

¹ WUVS-LP is licensed for operation on Channel 279L1 (103.7 MHz) with effective radiated power of 0.1 kilowatt (H&V) and antenna height above average terrain of 26 meters.

It is anticipated that WMCHN will shortly file an application for construction permit to permanently relocate the station, and that extension of this authority will not be necessary. WMCHN must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. This authority is without prejudice to any future application for construction permit. Any construction undertaken pursuant to this authority is entirely at WMCHN's own risk.

This authority expires on **January 20, 2008**.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with a long horizontal stroke at the end.

Charles N. Miller, Engineer
