RE: Antenna Direction

Dear Mr. Boyd

At the request of Combined Communications we have performed field surveying and computations to document the direction of four dish type antennas on a tower on Awbrey Butte. The tower is located in the northeast ¼ of Section 30 of Township 17 South and Range 12 East of the Willamette Meridian, Deschutes County, Oregon. Based on the survey work performed on October 25, 2004 and information provided by technical people on site at the time of this survey I hereby certify that the direction of the antennas is 117° North Azimuth.

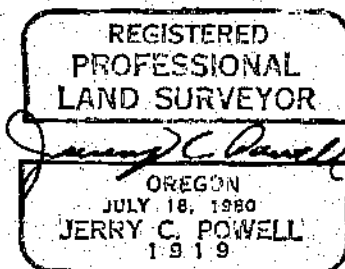

If you have questions or need additional information please feel free to call me.

Sincerely,

David Evans and Associates, Inc.

Jerry C. Powell
