Re: NEW(FM); Moscow, ID
Facility ID No. 172586
Radio Free Moscow, Inc.
BNPED-20071018BDS

Dear Applicant:

This letter refers to the above-captioned application, as amended September 8, 2010, for a new non-commercial educational FM facility to serve Moscow, ID.

An engineering study of the application, as amended, reveals that it is in violation of 47 C.F.R. § 73.509 with respect to the license (BLED-20090312ABV) for first-adjacent channel Class A station, KNWV(FM), Clarkston, WA. Specifically, the proposed interfering contour (54 dBu) would cause overlap to KNWV's protected contour (60 dBu) by as much as 3 kilometers between the azimuths from 169°T to 223°T. Also, the proposed protected contour (60 dBu) would receive overlap from KNWV's interfering contour (54 dBu) by as much as 2 kilometers between the azimuths from 149°T to 185°T. This constitutes an acceptance defect.

In light of the above, Application BNPED-20071018BDS is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and is HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Edna V. Prado
