EXHIBIT 19 - TV 6 PROTECTION ANALYSIS

**APPLICATION FOR NEW NCE FM
212A - COLEBROOK, NH**

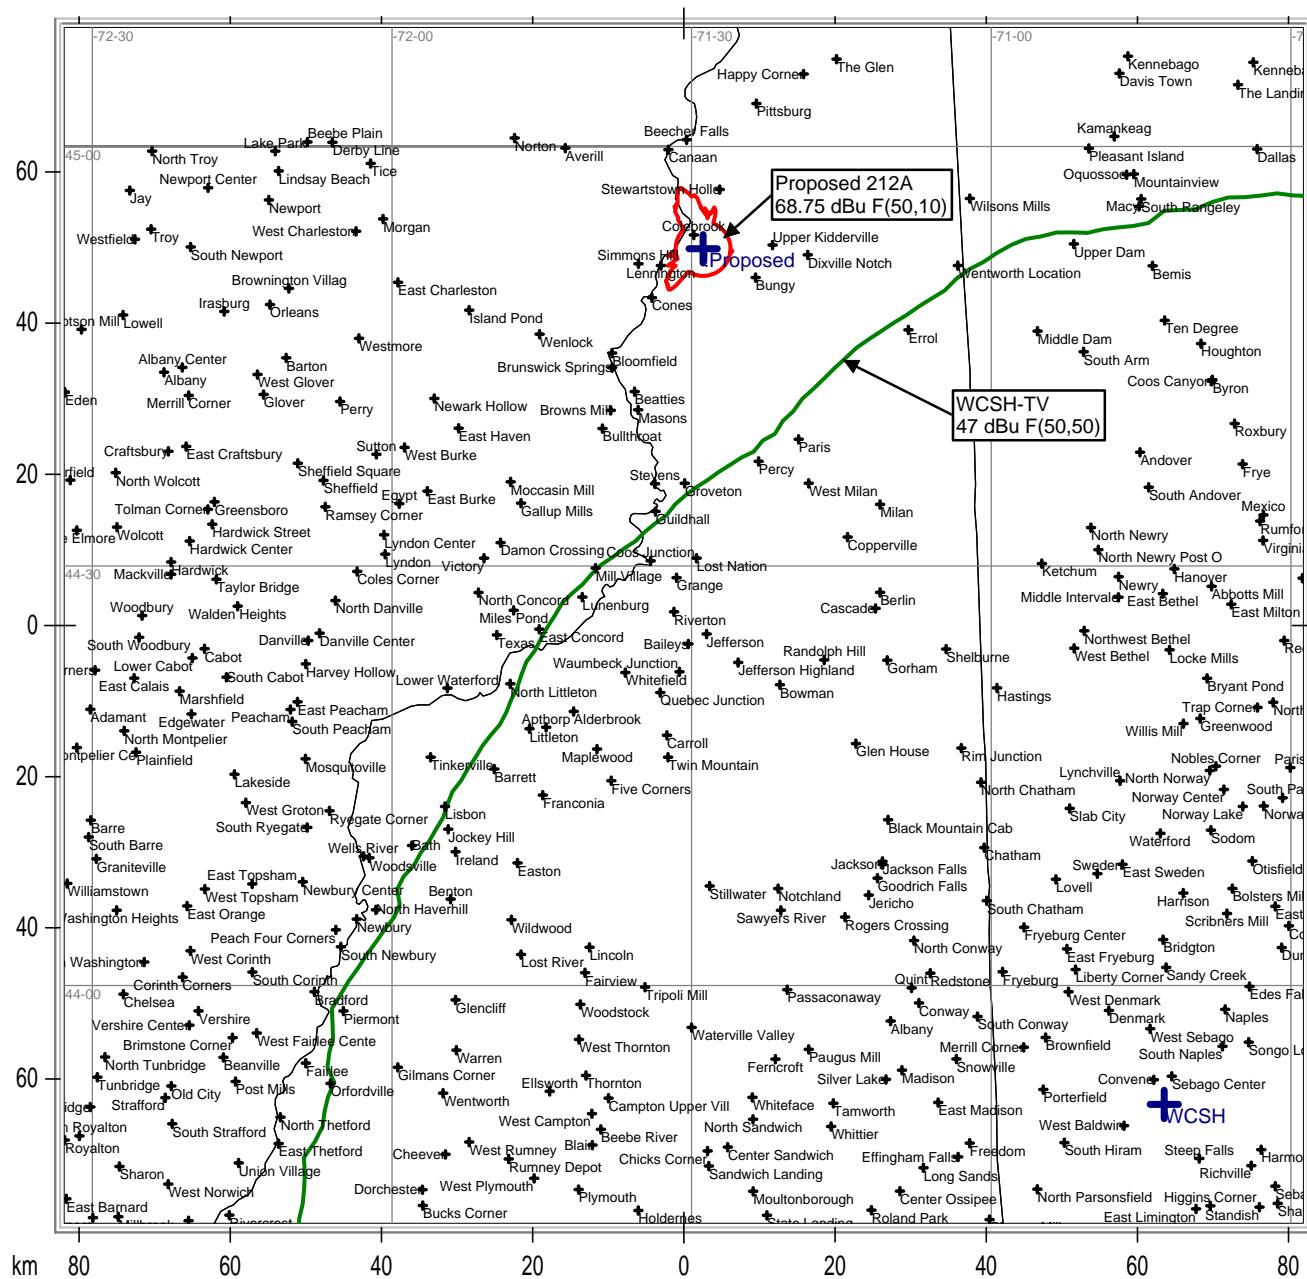

The proposed operation on channel 212A in Colebrook, NH is within 166 km of the following television station operating on TV channel 6:

WCSH-TV	Portland, ME	100 kW ERP DA	610 m HAAT
---------	--------------	---------------	------------

The 47 dBu, for this facility, was calculated and plotted. The Undesired to Desired ratio for channel 212 at the 47 dBu contour of the TV 6 facility is 21.75 dB. The 68.75 dBu F(50,10) of the proposed operation was also calculated and plotted. All contours were calculated in one degree increments of azimuth.

As shown on the attached Figure 1, the proposed operation will not generate prohibited interference to any of the affected TV facilities.

NEW(FM) - 212A - COLEBROOK, NH

ERP = 125 Watts - Antenna HAAT = -30 Meters
