The outstanding Construction Permit for W217BL issued Dec 27, 2002 contains as condition #3, the requirement for antenna impedance measurements on the antenna pattern of broadcast station WCGL(AM), 1360 kHz, Jacksonville, FL.

The construction of W217BL was coordinated by WCGL and testing has begun. Once WCGL-AM has completed these antenna impedance measurements Calvary Chapel will notify the Commission that condition #3, on the Construction Permit of W217BL, has been fulfilled.
