

## **Moved Studio and Antenna location**

1. When we submitted our Application for our Construction permit (FCC 318) we had reasonable assurance to place our operation (Studio and Tower) at 1414 New Boston Road in Texarkana, Texas. However, after further study, and research, the cost exceeded our budget; we explored other possibilities and options to reduce the cost.
2. **\*\* We are outside the top 50 urban market so we located our studio to 5070 FM 1398 in the rural area of Hooks, Texas 75561 rather than 1414 New Boston Road Texarkana, Texas. This location positions our studio 24.9 kilometers (15.5 miles) from our transmitter site which is located at 1002 Texas Blvd Texarkana, Texas (see coordinates below in paragraph 5 and 6). Locating our Studio in Hooks (see paragraph 6 below) allowed us to use an existing building at no cost and rent free. Therefore, relieving us of having to construct or rent a building.**
3. Additionally, owners of the building at 1002 Texas Blvd Texarkana, Texas with the height that we required (29 meters) permitted us to mount our antenna on the roof of their building therefore eliminating the requirement for us to purchase and installed a tower. The mounting of the antenna on their building did not exceed 30 meters. The distance from the proposed antenna site to the actual antenna site was less than 1 kilometer (seven tenths of a mile 7/10), no real significant change. (See coordinates below in paragraph 4 and 5).
4. **Proposed Antenna and Studio coordinates at;  
1414 New Boston Road Texarkana Texas are;  
North Latitude: 33 deg 26 min 27 sec  
West Longitude: 94 deg 04 min 35 sec**
5. **Actual Antenna coordinates at;  
1002 Texas Blvd Texarkana, Texas are;  
North Latitude: 33 deg 26 min 21 sec  
West Longitude: 94 deg 03 min 59 sec**
6. **\*\*Actual Studio coordinates at;  
5070 FM 1398 Hooks, Texas are;  
North Latitude: 33 deg 31 min 37 sec  
West Longitude: 94 deg 14 min 44 sec**
7. **By Re-locating the studio and antenna allowed us to proceed with this LPFM community project with minimum cost. Request favorable consideration.**

**\*\*Main studio.** The applicant pledges to maintain a publicly accessible main studio that has local program origination capability, is reachable by telephone, is staffed at least 20 hours per week between 7 a.m. and 10 p.m., and is located within 16.1 kilometers (10 miles) of the proposed site for the transmitting antenna for applicants in the top 50 urban markets and 32.1 kilometers (20 miles) for applicants outside the top 50 urban markets.
