Re: Citadel Broadcasting Company
KMEZ(FM), Port Sulphur, Louisiana
Facility Identification Number: 58395
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed April 15, 2010, on behalf of Citadel Broadcasting Company ("Citadel"). Citadel requests special temporary authority ("STA") to operate Station KMEZ with temporary antenna facilities.¹ In support of the request, Citadel states that it is planning to file an application for use of the licensed auxiliary antenna of Station WVDW, File No. BXLH-20091001ALC, as an auxiliary antenna for Station KMEZ. In preparation for the filing of its application, Citadel has arranged for measurements of radio-frequency fields on the KMEZ frequency to demonstrate compliance with the Commission's human exposure requirements. Citadel states that the engineer is on site to perform the measurements, and requests STA to operate the antenna on the KMEZ frequency for a brief period of time in order to perform the measurements. Citadel provides a map which shows that the proposed STA operation will not result in extension of the 60 dBu contour beyond the licensed contour.

Accordingly, the request for STA IS HEREBY GRANTED. Station KMEZ may operate with the following facilities, as necessary for the planned measurements:

Geographic coordinates:	29° 57' 07" N, 90° 04' 13" W (NAD 1927)
Channel	294 (106.7 MHz)
Effective radiated power:	0.43 kilowatt (H&V)
Antenna height:	
above ground:	199 meters
above mean sea level:	200 meters
Above average terrain:	200 meters

Citadel must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

¹ KMEZ is licensed for operation on Channel 294C1 (106.7 MHz) with effective radiated power ("ERP") of 100 kilowatts (Max-BT, H&V) and antenna height above average terrain ("HAAT") of 299 meters.

This authority expires on **April 30, 2010**. No extension of this authority is contemplated.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with a long horizontal stroke at the end.

Charles N. Miller, Engineer
