Dear Mr. Kennedy:

This is in reference to the request filed on October 7, 2019. Entercom requests a further extension of the STA granted on March 11, 2016, to continue operating with parameters at variance to allow time to file the required Form 302 application.¹ In support of the request, Entercom stated that additional time will be required to complete construction of the new co-located KDWN(AM) facility and file the application to update all operating parameters.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and Entercom may continue to operate with parameters at variance and/or reduced power while maintaining monitor points within licensed limits. Entercom must use whatever means are
